

"ROFRANO BEGGED ME TO KILL GAIMARI," SO MURDERER SWEARS

(Continued from First Page)

trigger. Then leave everything to me. My pocketbook will do the rest. Joe Brondini will be there with witnesses to any you are innocent if you are arrested. Fennimore will be there to help you get away. Rocco Carnivale will attend to everything else.

"But I am afraid to be arrested after killing a man," I told him. He said he would not ask me to kill Gaimari if he were not sure I could get away because he himself risked too much if I were arrested. He asked me to ask Brondini and the others if he was not telling the truth and they all said everything he said was right.

"Tommy," he said to me, "I have to go back to New York. I have an en-

MEAT CAUSE OF LAME BACK AND KIDNEY TROUBLE

Take a glass of Salts to flush Kidneys if your back is aching.

Noted authority says Uric Acid from meat irritates the Bladder.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then be fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive, harmless, and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.—Advt.

NO PERFORMANCE TONIGHT!

Madame Grand Opera suffering from a lousy throat and cannot sing

Do you sing—are you a salesman—use the phone—you must be able to talk—your comfort and perhaps your living depend on it—don't take any chances—always keep handy a package of Zymol Tablets

It Eases the Bunion

The Coward Special Bunion Shoe is designed to give comfort and ease to the sensitive bunion and at the same time have a trim and stylish appearance.

The Coward Shoe

has a pocket shaped into the leather right where the Bunion protrudes. This protects the bunion from the friction and chafing experienced in ordinary shoes.

it and Rocks (Carnivale) said to me: "3300, and the man is not yet dead." GAIMARI STABBED WITH POISONED KNIFE, HE HEARD.

"Did they tell you who was stabbed?" asked Mr. Brothers.

"No," answered Montemagno. "Pasquale Monaco told me it was Mike Gaimari. But Rocks and Fennimore said the stabbing had been done with a knife specially made about a foot long and the point had been poisoned because Rofrano wanted the man's blood to be poisoned even if the wound was only a scratch.

"Monaco told me Rocks and Fennimore and Cardillo and another man, who was a look-out, went to New York with him when Mike Gaimari was stabbed. Cardillo was killed the same night." The brothers of Gaimari were tried for Cardillo's murder and acquitted.

Montemagno said Carnivale and Fennimore put him in touch with a friend named Brondini, with whom he reopened negotiations for a second attack on Gaimari.

About a year later, Montemagno said, he went to Carnivale's home in Brooklyn, and found Pauline Samuels, Carnivale's girl, Frank Fennimore and Joe La Salle, who was hiding from the police.

"Carnivale said to me," he testified, "Tommy, according to the promise you gave to the boss a year ago you must kill the Horse. Rofrano says you must do as you promised."

"I told them I did not want to go to the electric chair to be killed for doing as they said. But they said I must do it so all the politicians would have to become the friends of Rofrano, who would then control everything and there would be good times for all of us."

Montemagno identified a pistol which he said Carnivale showed him at that time and with which he did kill Gaimari two months later. It was the weapon picked up near Gaimari's body.

Montemagno said he had been without lawful employment four of the five years he had been in this country. While he testified his young wife sat sobbing at the back of the courtroom. Their only child, born after he was sent to the death house, died recently.

MACKAY'S STEAMER ASHORE.

Wrecking Tug Finds Sea Too High to Rescue the Naassau.

GREENPORT, L. I., Oct. 17.—The steamboat Naassau of the Montauk Steamboat Line, under charter to Clarence H. Mackay to carry himself and guests to his hunting preserve on Gardiner's Island, is ashore on Gardiner's Island.

The tug P. Scott of the Scott Wrecking Company went to her aid, but found the sea too high for her to get near the stranded boat. The Scott tied up to wait for better weather. The Naassau formerly plied between this place and New London.

QUEEN OF THE SEAS, POWERFUL ARIZONA, PUT IN COMMISSION

(Continued from First Page)

16, 1914, and she was launched on June 19, 1915. She might have been placed in commission several days ago but for the fact that men to man her were not available. As it is it was necessary to put three first-class battleships, the Vermont, New Hampshire and Kansas, out of commission that a crew for the Arizona could be provided, and at that the new dreadnought is not up to her full complement. The Arizona requires 1,034 officers and men, and she now has 870, a shortage of 164.

In the drawing of her crew the Arizona was fortunate in having secured the entire turret crew of the battleship Kansas.

The officers of the new dreadnought are: Captain, J. D. McDonald; Lieut. Commanders, W. R. White, C. C. Bloch, S. H. R. Doyle and Richard Henderson; Lieutenants, W. S. Anderson, C. R. Clark, V. V. Woodward, S. A. Clement, H. Belt, H. A. Badt, H. E. Knauss, G. Bradford, J. B. Glennon, H. G. Cooper, J. B. Ritter, E. C. Lange, O. C. Badger, G. M. Tisdale; Ensigns, D. P. Moon, W. C. Sutherland, W. E. Jordan Jr., G. F. Bunnell, A. D. Ma, B. R. Holcombe, C. P. Cecil, E. Miller, G. P. Chapline, N. O. Wynkoop, J. H. Lawson, N. T. Lawrence Jr., R. H. Jones and L. Cooper; Surgeon, G. O. Smith; Assistant Surgeon, J. Harper; Paymaster, W. R. Bowne; Capt. M. E. Shearer, U. S. M. C.; Lieut. J. F. S. Norris, U. S. M. C.; Chief Boatswain, M. J. J. Farley; Chief Gunners, S. Danielak, A. D. Freshman; Gunner, C. Keene; Chief Machinists, M. S. Holloway, J. A. Oliver, J. L. McCormack; Chief Carpenter, J. J. Redington; Chief Pay Clerk, M. Gilman; Pay Clerk, W. R. Parker.

N. Y., N. H. and H. is Run on Economical Principles.

BOSTON, Oct. 17.—President Howard Elliott and other officials of the New York, New Haven and Hartford Railroad appeared before the Public Service Commission to-day in connection with a hearing on a report of George W. Bishop, chief of the inspection department of the commission, that its passenger service was inadequate. "We admit we have been economical and are trying to be more economical," Mr. Elliott said. "We deny, however, that we have been economical in those ways that hurt the property."

British Steamer Welsh Prince Sunk. LONDON, Oct. 17.—The British steamship Welsh Prince, 4,514 tons gross, and owned in Newcastle, has been sunk.

WHY THE NEW ARIZONA HAS NO PEER AMONG WORLD'S BATTLESHIPS.

The Arizona is one of the two most powerful battleships in the world. The Pennsylvania is her exact counterpart.

She is 308 feet long, 97 1/2 feet wide, draws 25 feet of water and displaces 31,400 tons. If she were stood on end beside the Singer Building she would equal its height. She can steam 21 knots an hour. She can fire a broadside of 18,044 pounds—throw more than nine tons of steel in one salvo.

Her four propellers are driven by engines fed with fuel oil. She has but one funnel.

Her complete company is made up of 1,034 officers and men. She has only 870 now.

She is armed with twelve 14-inch guns. These are placed in three, side by side in four turrets, two of which are forward and two aft. The turrets are in pairs, one overtopping the other and all placed directly over the keel.

She has a secondary battery of twenty 6-inch guns.

She has two anti-aircraft guns. She is so honeycombed with watertight compartments that it will be practically impossible to sink her with torpedoes.

Her keel was laid in March, 1914. She was built within the estimated time and with a saving of \$1,000,000 below the estimated cost.

She is commanded by Capt. John D. McDonald.

VASSAR UNDER QUARANTINE.

Students to Show Places of Amusement and New York City.

POUGHKEEPSIE, N. Y., Oct. 17.—Vassar College to-day was subjected to a strict quarantine rule which prohibited students from attending places of amusement in this city. For the present, during the possible prevalence of infantile paralysis, all persons connected with the college will remain away from New York City and other centers of population. There has been no polio-myelitis at Vassar.

Bidlinger Asks Habeas Corpus.

United States District Judge A. N. Hand yesterday set Nov. 10 for a hearing on the application for a habeas corpus made by Guy B. Bidlinger, a former Chicago detective, who was arrested here June 2 on a warrant charging bribery, issued at Chicago. He is free on \$20,000 bail. West Virginia recently tried to extradite him to testify in the case of a man accused of trying to bribe the Public Service Commission.

MILK SUPPLY 90 PER CENT.; PRICE MAY DROP TO 8C.

Commissioner Dillon Has Plan to Reduce the Cost to the Consumer.

New York received nine-tenths of its usual milk supply to-day. The increase over the 72 per cent. arriving yesterday was in the milk consigned to the big distributors who have just settled their dispute with the Dairymen's League.

Consumers may expect 8-cent milk in the spring instead of 10 or 12 cents, if the plan of Commissioner Dillon of the State Department of Foods and

Markets matures. This is to have the Committee of Five, that both producers and distributors have agreed shall set the price paid dairymen by dealers, develop a plan whereby the cost of production and distribution shall be reduced then to such an extent that everybody in the milk business will continue getting the same profits as now out of milk sold at 8 cents instead of 10 or 12 cents per quart.

The injunction suit brought by the Sheffield Farms - Blawie - Decker Company against Commissioner Dillon was discontinued to-day. Justice Cohalan signed the order at the request of counsel for both sides.

Aviator Killed Looping the Loop. LA PLATA, Argentina, Oct. 17.—While "looping the loop" in an aerial

flight here to-day a Paraguayan aviator named Pettrossi fell to the ground and was killed.

Frolaset Corsets

PRONOUNCED FRO-LA-SAY

Front Corsets Laced

The Most Perfect Fitting Front-Laced Corsets Made

The newest models now on display conform in every graceful, beautiful line to Fashion's dictates for the new season.

Frolaset Corsets give the delightfully feminine figure, slightly incurved at the waist, showing the natural curves of the hip and giving the flat back, all so essential to the new "silhouette."

Frolaset Corsets

are designed on scientific principles, anatomically correct and very finely boned. Modeled on human forms, they fit the various types of figures perfectly.

Corsets suitable for all types of figures, featuring the low, medium and high busts; also models for misses and growing girls. In Coutil, Broche, Figured Materials, Plain Batiste, Taffeta or Faille.

Frolaset Corsets

are fashioned of materials of fine, firm texture, so that their shapeliness is retained. Finishing details are exquisitely dainty and the workmanship is faultless.

\$2.00 to \$25.00

Our expert Corsetiers will aid you in the selection of the Frolaset model best suited to your individual lines.

Special for Wednesday

Frolaset Model of Coutil, medium low bust, and long skirt, well boned, taking care of the average figure; complete range of sizes. Formerly \$3.50. \$2.50
